- Inexpensive
- Basic installation is less than a minute
- Activated by: motion / tilt / light / shock / contact switch
- Two 120 db sirens (alarm sound is almost equivalent to a jet engine)
- Keyed switch (on/off/reset) (on multiple orders, alarms can be keyed the same)
- External keyed switch (optional)
- Door contact switches (optional)
- External siren (optional)
- Shock Sensor w/16" closed loop wire (optional)
- External Blinking LED (optional)
- Instant notification via Text message or Email (Plug & Play to DPL Hercules+)
- Adjustable light sensor (off/min/max)
- Two LED lights (alarm on/battery charger on)
- Siren Time Switch (adjustable: 30 sec/5 min/30 min/auto) (siren times can be changed for custom orders)
- 6 volt rechargeable battery (power outages do not disable the alarm)
- Trickle cell battery charger
- Battery replacement indicator (sounds a chirp every two minutes) (expected battery life 5 to 7 years)
- 110 volt grounded power outlet (optional for ATM)
- One 4 ½" round Bull Horn ATM Alarm warning sticker (placed on outside of ATM)
- Small in size (9"x 6"x 3" and weighs less than 4lbs)
- Can be added to any existing building alarm systems (Plug & Play)
- Helps protect ATM from line surges
- Lowers insurance costs (Bull Horn ATM Alarm has been endorsed by ATMIA special risk insurance group)
- 30 day money back guarantee
- ATM theft reimbursement guarantee
- 2 year limited warranty
- No false alarms
- Made in the USA
- Patent pending
